

Lesson 2: The Solar System Tour

Use this amazing online tour to collect facts about all eight of the major planets, then use these to write a tourist mini-guide to the Solar System with a maximum of one page or slide per planet - although you could include an extra page for 'other places to visit' if you want to, such as asteroids, comets and minor planets:

<https://nineplanets.org/tour/>

Include the sort of information tourists will need to know, such as sights to see; temperatures and conditions to expect and what to bring with you.

Instead of a booklet or slide show, you could record a promotional video if you prefer!
